## **Preface**

Academic achievement is the indicator of the success and failure of the learners and a deciding aspect of the career of the learners. Educational institutions, parents, students give great emphasis for academic achievement. Academic achievement varies from person to person, from low to high in a continuum. There are several factors which affect the academic achievement of the students like behavioural aspects, environmental aspects of home and school, characteristics and nature of parents and children. Science and technology play an important role for managing the education system including administration, management and teaching-learning process for increasing the efficiency and effectiveness of the system. The effectiveness of teaching- learning process can be increased by systematic use of science and technology in logical combination such as Audio, Visual, Audio-Visual, Animation, Pnemonic adds and several others packages in a multiple ways known as multimedia package. The immense significance of multimedia persuades me to take up an experiment study the Impact of Multimedia Package on Achievement of Science of VIII Class Students so that the predetermined outcomes are achieved in an effective way by implying multimedia in classrooms for academic purpose.

S.N.		Contents	P.N.
01.	INT	01	
	1.1	Academic Achievement	
	1.2	Academic Achievement in Science Subject	
	1.3	Academic Achievement and Gender Differences	
	1.4	Gender Differences in Science Subject Achievement	
	1.5	Factors Affecting Academic Achievement	
	1.6	Multimedia Package	
	1.7	Multimedia Package: In Different Roles	
	1.8	Theories and Principles of Multimedia	
	1.9	Multimedia Package and Science Achievement	
	1.10	Significance of the Study	
	1.11	Rationale of the Study	
02.	REV	55	
	2.1	Studies Related to Gender and Academic Achievement	
	2.2	Studies Related to Multimedia and	
		Academic Achievement	
03.	PRO	OBLEMS AND HYPOTHESES	77
	3.1	Statement of the Problem	
	3.2	Operational Definition of the Terms	
	3.3	Objectives of the Study	

3.5       Delimitations of the Study         04.       METHODOLOGY       80         4.1       The Population       4.2         4.2       The Sample       4.3         4.3       Tools of the Study       4.4         4.4       Experimental Design of the Study       4.4         4.5       Procedure       86         05.       ANALYSIS OF DATA       86         5.1       Analysis in Relation to Effect of Multimedia Package Training in Science Achievement       86         5.2       Analysis in Relation to Role of Gender in Science Achievement       93         5.3       Analysis in Relation to Interaction Effect of Multimedia Package Training and Gender in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training and Gender in Science Achievement       93         6.3       Interaction Effect of Multimedia Package Training and Gender in Science Achievement       99         7.1       Introduction       99		3.4	Hypotheses of the Study		
04.       METHODOLOGY       80         4.1       The Population       4.2         4.2       The Sample       4.3         4.3       Tools of the Study       4.4         4.4       Experimental Design of the Study       4.5         4.5       Procedure       86         5.1       Analysis in Relation to Effect of Multimedia Package Training in Science Achievement       86         5.2       Analysis in Relation to Role of Gender in Science Achievement       93         5.3       Analysis in Relation to Interaction Effect of Multimedia Package Training and Gender in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training in Science Achievement       93         6.1       Independent Effect of Multimedia Package Training and Gender in Science Achievement       93         6.3       Interaction Effect of Multimedia Package Training and Gender in Science Achievement       99         7.1       Introduction       99         7.1       Introduction       99         7.1       Introduction       99         7.1       Int			51 5

# Dr. Arun Kumar Dubey

Hard work, determination, perseverance, diligence and honesty are the decisive factors for achieving accomplishments and attaining the objectives of life, Dr. Arun Kumar Dubey with this belief serving in the field of education and shouldering the responsibility of Principal at Columbia College, Tekari, Raipur (C.G.). He has 15 years experience of teaching in education institution. He was also serving as the Principal and Head Incharge in Disha College of Science and Commerce, Raipur (C.G.). He received Masters degree in education from Pt. Ravishankar Shukla University, Raipur (C.G.), Masters in Science from Guru Ghasidas University, Bilaspur (C.G.) and Ph.D. (Education) from Pt. Sundarlal Sharma (Open) University, Bilaspur (C.G.). He qualified UGC National Eligibility Test (UGC-NET) in Education. He published research papers in various topics of education. He organised State and National Level Seminar, Workshop and International Webinars. He attended and presented papers in so many National Level Seminars, Conferences, Dialogue, Workshops and FDP. He is editorial board member in different journals. He is the secretary of Chhattisgarh Educational, Social and Cultural Organisation, Raipur (C.G.). He is advisory board member of Adhrit Consultancy Services and life member of Vigyan Bharati. He was awarded Shikshak Samman, 2022 by education minister Chhattisgarh for his exemplary work in field of education.

He is the editor of "Global citizenship Education : A Pressing Priority of the Era" book.
