CONTENTS

S.No.	Particular	P.N.
01.	The Dawn of Generative AI	01
02.	How Generative AI Works	39
03.	Applications of Generative AI in Art	69
04.	Generative AI in Entertainment and Media	111
05.	Generative AI in Design and Architecture	125
06.	The Business of Generative AI	144
07.	Ethical Considerations and Social Impact	154
08.	The Future of Generative AI	165
09.	Getting Started with Generative AI	175
10.	Reflections and Closing Thoughts on Generative AI	184
11.	Summary	201

Dr. Ankit Mishra

Dr. Ankit Mishra is an Associate Professor at ISBM University Chhattisgarh, renowned for his expertise in Electrical and Electronics Engineering and nanotechnology, particularly in nanoelectronics and solar cell nano design. With over 61 research papers published in top international and national journals, his work is indexed in esteemed databases like SCI, Scopus, Mendeley, Thomson Reuters, and UGC journals. Additionally, he has contributed book chapters, further broadening his academic influence. Mishra holds 24 IPRs, underscoring his impact on technological innovation and intellectual property development. His research encompasses Edge, Fog, and Cloud networking technologies, reflecting a forward-thinking vision addressing complex challenges at the intersection of technology and society. His contributions span Electrical Engineering, Nanotechnology, and Cybersecurity, enriching the academic community and championing societal transformation. Authoring five significant books, Mishra has demonstrated an ability to distill complex concepts into accessible knowledge, solidifying his stature as a thought leader and domain expert. His career harmonizes innovation, research brilliance, and a commitment to educational excellence, with ongoing explorations in Electrical Engineering and Nanotechnology continuing to shape these fields' futures. His work inspires future generations and advances the boundaries of knowledge.

Dr. Prasanna Kumar Sharma

Dr. Prasanna Kumar Sharma, an esteemed Associate Professor at Amity University Chhattisgarh, specializes in Chemistry, Applied Chemistry, and Environmental Sciences. His research includes analyzing toxicants in environmental samples, sewage water analysis, and waste treatment. He has published over 40 research papers in international and national journals and conferences, indexed in SCI, Scopus, Mendeley, Thomson Reuters, and UGC journals. Additionally, he has authored two book chapters. With a robust background in industrial work, particularly in continuous process control of chemical plants, Dr. Sharma addresses technological and societal challenges. His commitment to sustainable practices and advancing scientific knowledge focuses on waste treatment, climate change, and environmental technology. With 28 years of teaching experience in Basic Science, Biotechnology, Earth Sciences, and Engineering Chemistry, and 4.5 years of industrial experience, he brings extensive expertise to his role. At Amity University, Dr. Sharma serves as Dean of Student Welfare, Proctor, Superintendent of University Examinations, and Coordinator of multiple initiatives, highlighting his dedication to research, education, and administration.

Er. Seira Shinde

Seira Shinde serves as an Assistant Professor of Computer Science at ISBM University, where she enriches the academic community with her extensive knowledge and expertise. Demonstrating a strong commitment to advancing computer science, she excels in both innovative research and dedicated teaching. Ms. Shinde's contributions to technological advancements are highlighted by her registration of two national patents. Her research is well-regarded, with numerous publications in Scopus-indexed journals and prestigious international journals of advanced research. Her primary research interests include Artificial Intelligence, Database Management Systems, and Data Mining. She is passionate about harnessing the potential of AI to transform various industries and is actively engaged in developing new methodologies for managing and extracting valuable insights from large datasets.
