Message

I was very happy to be in an excellent Institute, Columbia College, Raipur on the occasion of National Seminar on “**Revamping Higher Education System to Meet the Challenges of 21st Century**”. And, I had the privilege of giving an invited talk on INDIAN PEDAGOGY in the Seminar. I consider that the Columbia College is one among the top four in Chattisgarh State. The reasons are-

1. Dr. Arun Kumar Dubey, the Principal of the College is an excellent academic administrator and Dr. Abha Dubey Vice Principal is always involved in the academic growth of the College.
2. The College has an excellent infrastructure in terms of Computer Laboratory, Science, Mathematics and Social Science Laboratories, very good Library and good facilities for Education.
3. Amazing natural ambience and the Gardens with many plants spread over a large area.
4. Very good support by the College Management, especially *Shri Kishore Jadwani*, Chairman.
5. Inclusive Learning and practice of the value LIVING TOGETHER.

The faculty and students of the College put all their efforts to take the College to higher heights. Above all, the College has pleasing manners with amiable disposition. I wish the Columbia College all the best.

Preface

Education is one of the basic foundations on which lay the progress of individuals, societies and nation. In this era of globalization, where rapid technological advancements, cultural integration, and economic shifts redefine the landscape of learning, the traditional education system must undergo a transformation. The need for a revamped education system is more pressing than ever to address the diverse challenges posed by the 21st century.

A holistic and innovative approach to education is essential to equip students with not only academic knowledge but also critical thinking, problem-solving abilities, and life skills. The integration of digital learning, skill based education, value driven teaching, and research oriented methodologies can foster a more adaptable and competent generation. Furthermore, the inclusion of global perspectives alongside local values ensures that students are prepared to contribute meaningfully to society while staying rooted in ethical and cultural principles.

This work delves into the necessity of revamping the education system, highlighting key areas that require reform. It aims to provide insights into how education can be restructured to nurture creativity, adaptability, and inclusivity, ensuring that learners are well prepared for the ever-changing global landscape.
