Chancellor's Message

As we gather for this pivotal conference on “Chhattisgarh Vision 2047,” we stand at the crossroads of opportunity and responsibility. Our vision for the future must encompass sustainable development, social equity, and technological advancement. The challenges we face, including climate change, urbanization, and economic disparities, require collective action and innovative solutions.

It is imperative that we harness our collective expertise and insights to address these pressing issues. Engaging in meaningful discussions will pave the way for actionable strategies that can be implemented effectively. We must focus on creating frameworks that not only respond to immediate challenges but also anticipate future needs.

I urge all participants to share their experiences and perspectives, as this collaboration will be crucial in transforming challenges into opportunities. Together, we can ensure a prosperous and inclusive future for Chhattisgarh by 2047. Let this conference be a springboard for ideas that will shape our state's destiny, fostering a spirit of unity and shared purpose. In doing so, we can build a resilient Chhattisgarh that thrives for generations to come.

Mr. Abhishek Agrawal
Chancellor
Anjaneya University

Pro Chancellor's Message

The “Chhattisgarh Vision 2047” conference serves as an essential platform for addressing the myriad challenges our state faces. It is crucial that we identify our responsibilities as educators, policymakers, and citizens in fostering an environment conducive to growth and sustainability. We must prioritize education, health, and infrastructure, as these are the foundational pillars upon which our future rests.

Education is not merely a tool for individual advancement but a catalyst for societal transformation. By investing in our youth, we empower them to become innovative leaders who can navigate the complexities of tomorrow. Health, too, is paramount; a healthy population is vital for productivity and well-being. Furthermore, robust infrastructure is necessary to support economic activities and improve quality of life.

Through collaboration and shared insights, we can develop a comprehensive roadmap that not only meets our current needs but also anticipates future demands. I encourage everyone to contribute actively, share their expertise, and help us shape a resilient Chhattisgarh that thrives on inclusivity and sustainable development. Together, we can create a legacy that future generations will be proud of.

Mrs. Divya Agrawal
Pro Chancellor
Anjaneya University

Vice Chancellor's Message

Greetings from Anjaneya University!

It is with great pride I take this opportunity to greet and thank you all for this research and sustainable development endeavour of our university. This Abstract Book of the three-day regional conference on Chhattisgarh Vision 2047 is a forward-looking genuine effort aiming at determining the future of our state. This roadmap may be seen as a distant dream on a imaginative project but I am sure that is going to be used for our people, resources, and institutions to drive Chhattisgarh towards sustainable development, innovation, and inclusive progress. This resource rich land shall be a huge cosmopolitan in the future.

It is no less than a serendipity that that our great national shall celebrate its 100 years of independence in 2047, thus this vision provides a guiding framework to match Chhattisgarh's development with national ambitions. It brings together academics, legislators, business leaders, and grassroots innovators to cooperatively guide Chhattisgarh towards a rich, self-reliant, technologically sophisticated future.

This vision will depend much on research and education and the main reason behind this conclave was to brainstorm a roadmap for the future as Chhattisgarh is rich in resources and what we need is the focus on skill development, and environmentally friendly behaviour. By means of teamwork and intellectual contributions, we can propel significant alteration in fields like education, industry, digital revolution, healthcare, agriculture and environmental preservation.

My sincere gratitude to all those who have contributed their scholarly articles for this Abstract Book. For a progressive Chhattisgarh, your commitment and research are really significant tools in forming policies and plans. Let us cooperate to create a progressive, inclusive, and forward-looking future.

My best wishes for a bright future to you all.

Dr. T. Ramarao
Vice Chancellor
Anjaneya University

Director General's Message

The “Chhattisgarh Vision 2047” conference is a vital initiative that brings together diverse voices to discuss the future of our state. We face significant challenges, including economic disparities and environmental sustainability, but with these challenges come immense opportunities for growth and innovation.

It is our responsibility to develop strategies that not only address these issues but also empower our communities. By fostering collaboration among government officials, industry leaders, and grassroots organizations, we can create a unified approach that leverages the strengths of all stakeholders.

I encourage every participant to engage fully, share their insights, and collaborate on actionable solutions. Let us prioritize education and skill development, ensuring that our youth are equipped to thrive in a rapidly changing world. Additionally, we must advocate for sustainable practices that protect our environment while promoting economic resilience.

Together, we can create a comprehensive vision that will guide Chhattisgarh toward a brighter future, one that is inclusive, equitable, and sustainable for generations to come. Your active participation is crucial in shaping this transformative journey.

Dr. B. C. Jain
Director General
Anjaneya University

Pro Vice Chancellor's Message

As we embark on this journey to envision Chhattisgarh in 2047, we must confront the challenges that lie ahead with determination and foresight. This conference serves as a critical platform for stakeholders to collaborate and share their perspectives. Our responsibilities extend beyond mere planning; we must ensure that our strategies are inclusive and sustainable.

I urge all participants to bring forth innovative ideas and practical solutions that address the pressing issues of poverty, education, and environmental sustainability. It is essential that we create a comprehensive skeleton that not only tackles these challenges but also empowers marginalized communities, ensuring that no one is left behind.

By fostering partnerships between government, civic society, and the private sector, we can harness collective expertise and resources. Let us prioritize initiatives that promote economic upward mobility while safeguarding our natural resources for future generations. Together, we can build a robust framework that will lead Chhattisgarh to a prosperous future, setting a model for other states to follow.

Your engagement and collaboration is vital in shaping a vision that reflects the aspirations of our people and drives eloquent progress.

Dr. Sumit Shrivastava
Pro Vice Chancellor
Anjaneya University

Registrar's Message

As we convene for the “Chhattisgarh Vision 2047” conference, it is essential to recognize the responsibilities we hold in shaping our state’s future. The challenges we face today—ranging from social inequality to climate change—demand a concerted effort from all sectors. This conference provides an invaluable opportunity to discuss these challenges openly and propose solutions that are both innovative and practical.

I invite all participants to contribute their expertise and perspectives to foster a collaborative environment. By sharing our diverse experiences, we can identify best practices and develop actionable strategies that address the unique needs of our communities. It is crucial that we not only focus on immediate solutions but also consider long-term impacts that will define the trajectory of Chhattisgarh.

Together, we can forge a path toward a sustainable and equitable Chhattisgarh by 2047. Let us harness our collective wisdom and creativity to build a future where every citizen has the opportunity to thrive. Your engagement and commitment are vital as we embark on this transformative journey.
